- *Obtížné Vztahy*, short, director 2018
- *The Battle of Korpoström*, short, director 2017
- *The Logs of Captains*, document, director 2016

## MEDIA AND FILM PROFESSIONAL

I'm a Finnish media & communications professional and filmmaker currently living in Turku, Southern Finland.

I have graduated from the renowned FAMU film school in Prague, and studied media production at the Turku Art Academy. Additionally I'm a Master Artisan and a licensed SFX technician. I have also studied information technology.

My specialty is directing and screenwriting. I'm also a proficient producer, competent in production design and experienced in special effects. As a communications pro I can create absorbing content for diverse media outlets, from short social media clips to executive corporate messaging. I have excellent IT skills ranging from office packages to specialist film and 3D VFX software. I have significant international experience across Scandinavia, Europe and Asia. I can both competently lead a team and work as a dedicated crew member. I plan meticulously, but I can also improvise quickly when needed.

I'm interested in many forms of art, enjoy a wide range of sports, and have a passion for travel—particularly scuba diving in warm waters and sailing on historical ships to explore unknown ports.

## RECENT VOLUNTARY WORK

- *Acting for Ukraine* - workshop, director 2022
- *Grand Acting Studio* - workshop, director 2020-22
